Expanding access to e-resources

- A wide range of tools are available to make it easy to create and manipulate statistical tables and to export them in multiple formats.
- An innovative citation tool is available for data.
- DOIs and static URLs are available for all titles including databases.

## About the publisher

For more than 40 years, the **OECD** has been one of the world's largest and most reliable sources of comparable statistics, and economic and social data. As well as collecting data, the OECD monitors trends, analyses and forecasts economic developments and researches social changes or evolving patterns in areas such as trade, environment, agriculture, technology and taxation.

**OECD Publishing** is one of the world's largest publishers in the fields of Economics and Public Policy. It is well known for its authoritative, internationally-comparable statistics, analysis, and outlooks, and for its groundbreaking online service, OECD-iLibrary.

## Further information

- **OECD-iLibrary website**
- **Brochure**
- **Online tutorial**
- **Thematic videos**
- Other **support materials** including user guides in many languages, an up to date DOI listing, information on MARC records and COUNTER usage statistics, and promotional materials such as posters, bookmarks and fliers
